Welcome to the New OWASP Vienna Chapter!

We network. We laugh.

We pretend to be organized.

What to Expect?

- At least 4 events a year

- Food included 🥨

- Beer included 🍺

- Talks that you actually might find interesting

- And if you're lucky: Great people who want to share cool new stuff about IT & software security

What to Expect?

- Barely any buzzwords, more real security content → yes, we do AI talks today …

- Talks about things that are already broke, are breaking down, and hopefully how to fix them

- Live demos that may or may not work

- No sales talks

So, an OWASP Chapter eh?

Open Worldwide Application Security Project

- Nonprofit foundation

- Wants to improve the security of software

- Tons of free and open source materials, including:

  - OWASP Top 10 lists

  - Application Security Verification Standard (ASVS)

  - Cheat Sheet Series

  - Software Assurance Maturity Model (SAMM)

Where to Find Us

- Official OWASP homepage:
  owasp.org/www-chapter-vienna

- Meetup: www.meetup.com/owasp-chapter-vienna

- Mastodon: wien.rocks/@owasp_vienna

- Bluesky: owasp-vienna.bsky.social

You want to give a talk?

- You know your stuff?

- You have a cool demo that sometimes work?

- It's about security (IT, SW, brrrr governance…)?

Please send your talk to npetri@sba-research.org with

- Title

- Abstract

- Short Bio

Short Commercial Break

Sorry …

SBA Research Professional Services

Security Governance

- Security Governance Lagebild
- ISMS / ISO 27001
- Compliance (NIS-2, CRA, DORA, etc.)
- Risikomanagement & Business-Impact
- Audit & Beratung

Cyber Defense

- Cyber Security Lagebild
- Penetrationstests (Infrastruktur, Cloud, Netzwerk)
- Red/Blue/Purple Teaming
- Social Engineering & Phishing
- SWIFT CSP Audit

Security Schulungen

- Security Awareness
- Hacking & Defense (Web, Windows, IoT)
- Secure Coding & Application Security
- Cloud & Cloud-Native Security
- Zertifizierungsvorbereitung

Software Security

- Sicherer Softwareentwicklungsprozess
- Threat Modeling & Architekturreviews
- Application & Mobile App Pentesting
- Quellcode-Audit
- CI/CD Audit

Every Chapter Leader is in IT Security

- Web Application Security Assessments
- Source Code Reviews
- Infrastructure / Network Pentest
- OSINT / External Pentest
- Mobile Application Security Assessments
- Cybersecurity Consulting
- Lecture / Training

Organizational
Cybersecurity is not just technology. Quite the opposite. Here we identify organizational risks and solve them through adapted processes or other organizational measures.

Organizational
Cybersecurity Consulting
We advise you and your company.
MORE →

Organizational
Upskilling your Developers
We train your devs.
MORE →

Organizational
Hacking Lectures
I give exciting lectures.
MORE →

Organizational
hack-mi.net Bootcamp
From 0 to "I know what to do".
MORE →

Hacking
This is about actual attacks – be it phishing, penetration tests, or code reviews.

Hacking
Penetration Tests
I hack your company so the bad guys won't.
MORE →

Hacking
Web App Tests (Black Box)
Does your software have security vulnerabilities?
MORE →

Hacking
Web App Tests (White Box)
I review your source code and find vulnerabilities.
